

POWER - SOCCER SPEED DYNO

LLAMA DYNO

ONE SPEED CHECK

A referee drives a power-soccer chair forward then reverse on the dyno. LlamaDyno reads the rollers live in a browser, judges each direction against the cap, and stamps an official PASS / FAIL — before and after every game.

READ → JUDGE → RECORD

THE REFEREE

1 · Capture console

Pick the phase & machine, drive the chair forward then reverse, choose athlete + chair, Save.

llamadyno.app/testing

THE DYNO

2 · The rollers

USB rollers read wheel speed live in the browser via Web Serial — nothing to install.

desktop Chrome / Edge

THE RECORD

3 · Official result

PASS / FAIL per direction — summarized, printable, signed, and PowerHub-ready.
